All-in-One Cleaning for Comprehensive Pool Care

Introducing Aiper's first All-in-One solution, delivering unmatched cleaning power for your pool's surface, floor, walls, and waterline. This fully integrated system provides complete, hassle-free maintenance, giving you a pristine pool without the effort.

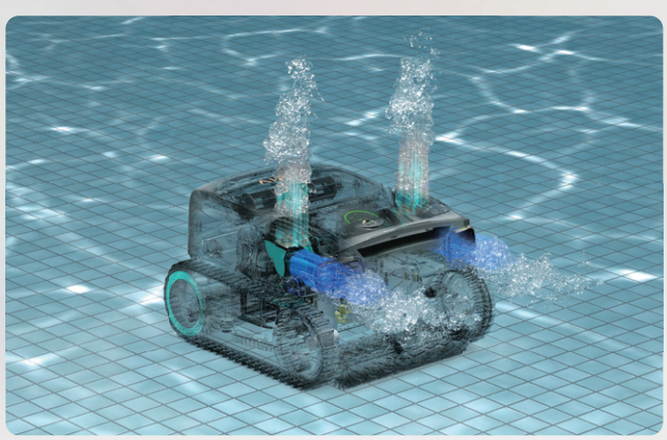

OmniSense+™ 2.0 Ultrasonic Sensors for Pool Mapping

With 40 sensors and a quad-core processor, Scuba X1 Pro Max scans your pool, identifying not only floors and walls but also complex areas such as water surface, slopes, and elevated platforms, offering customized cleaning tailored to your pool's unique design.

World's First Adaptive Path Planning with FlexiPath™ 2.0

Based on the pool map, FlexiPath™ 2.0 technology selects optimal cleaning patterns for complex platforms and layouts. It guarantees 100% coverage, delivering spotless, thorough cleaning for all pool types.

TVC Engine for Superior Maneuverability

Inspired by fighter jets, the TVC Engine enhances underwater mobility and ensures smooth movement and powerful propulsion for hassle-free, efficient pool cleaning.
