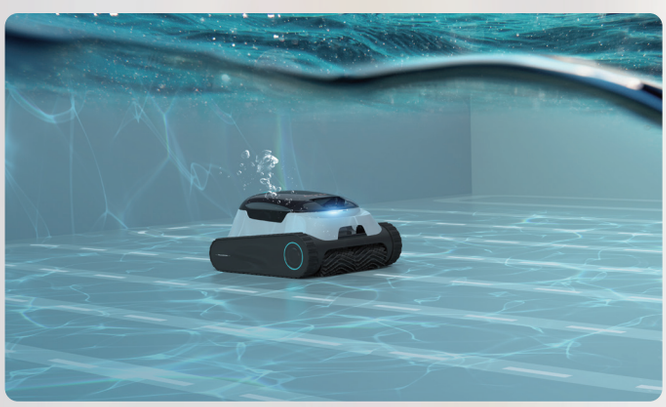
Optional Accessories

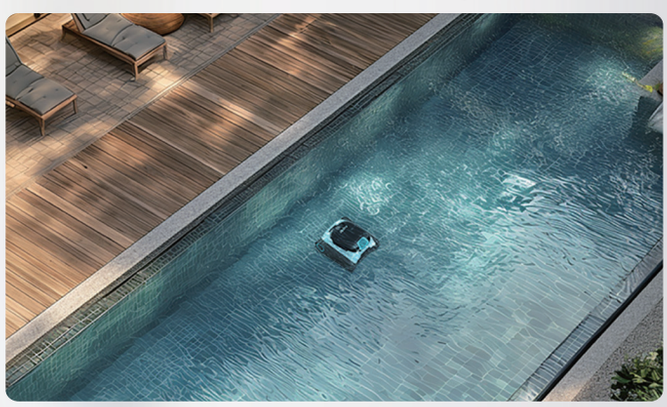
1 x 3μm Replaceable MicroMesh™ Ultra-fine Filter

Aiper Scuba N1	
On Track to Perform	
Maximum Cleaning Area	150 m^2 (1 600 sq. ft)
Suction Power	18 000 LPH (4 800 GPH)
Battery Life	240 Minutes
Charging Time	3-4 Hours
Filtration Level	Fine Filter Basket – For everyday debris MicroMesh™ Ultra-Fine Filter (3μm) – For finer particles



WavePath™ Navigation Technology

Utilizing advanced WavePath™ technology, the Scuba N1 intelligently assesses its position in the pool and selects optimal cleaning paths for a thorough and effective clean across all pool surfaces. This innovative navigation ensures no area is missed, maximizing cleaning efficiency.



Scheduled Cleaning

Delivers consistent maintenance for your pool care. Supports up to 4 sessions per week at 45 min, 3 sessions at 60 min, or 2 sessions at 90 min.

Replaceable MicroMesh™ Ultra-fine Filter

The MicroMesh Ultra-fine Filter enhances the Scuba N1's cleaning efficiency, capturing even the finest debris, such as sand, dust particles, and microscopic impurities. This replaceable 3 μm filter ensures optimal performance, preventing clogs and maintaining long-lasting cleaning results for a consistently spotless pool.

Superior Obstacle Traversal for Edge-to-Edge Cleaning

The Scuba N1 features robust caterpillar treads designed to provide better traction, mobility, and obstacle traversal. This ensures seamless movement along the floor and walls of your pool, delivering an edge-to-edge clean with ease and efficiency.

OTA Upgrades with the Aiper App

The Aiper app offers continuous OTA (Over-The-Air) updates, ensuring your Scuba N1 is always equipped with the latest features. These updates improve path planning and ensure that your pool remains in pristine condition with every clean.
